

**top**  
schools

**Oshawa**

Not all schools are included in these rankings. Schools will be excluded if, for whatever reason, we do not receive enough data from the provincial ministry of education to fairly rate the school. For example, elementary schools in Ontario that do not enroll grade 6 students will not be included in the rankings. The reason for this is that we must have student results data from province-wide testing that is conducted in grade 3 and grade 6. So, if a school is excluded that doesn't mean it is an ineffective school or that the school did something wrong. It just means that we don't have enough student results data to fairly rate the school.
